

THE TELECOMMUNICATIONS AUTHORITY OF FIJI

PUBLIC NOTICE ON THE PROHIBITION OF 1.9 GHZ DIGITAL ENHANCED CORDLESS TELEPHONE 6.0 (DECT) DEVICES

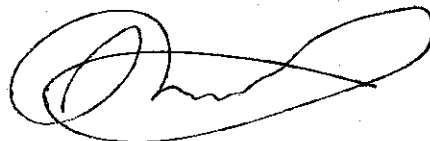

The Telecommunications Authority of Fiji ('Authority') wishes to advise the general public that the **1.9 GHz Digital Enhanced Cordless Telephone 6.0 (DECT)** devices on frequencies of 1850MHz to 1990MHz is prohibited for any usage, and as such should not be imported or sold by any company or individual within Fiji.

This prohibition is made in consideration of evidences of spectrum interference caused by this device to licensed 3G services provided by Digicel (Fiji) Limited and Vodafone Fiji Limited.

Such a device if in current usage needs to be decommissioned within fourteen (14) days from the date of this Notice.

Failure to do so will lead to the Authority instigating proceedings under Section 76(1) of the Telecommunications Promulgation, which specifies a fine of \$5,000 or imprisonment for up to 12 months for non-compliance. In the event the non-complying party is a legal entity, then fines prescribed for such an offence would be 2% of their annual gross revenue.

For any further clarification or queries, please contact the Authority on 3310105.

**Shivnesh Prasad
ACTING CHAIRMAN**
